Hon. Commissioner of Patents
Washington, D.C. 20231

Sir:

Request for Interference

Pursuant to 37 C.F.R. § 1.607, applicant respectfully requests that the Office declare an interference between the present application and United States Patent Nos., 5,692,550 and 5,701,940.

The claims of this application copy all of the claims in United States Patent Nos. 5,692,550 and 5,701,940. Applicant's claims 1 through 34 are the same as claims 1 through 34 of the '940 patent. Applicant's claims 35 through 81 correspond to and are presented in the same order as claims 1 through ⁴⁷~~37~~ of the '550 patent.

BY

This application is a continuation-in-part of United States Patent Application Serial No. 08/756,282, filed November 25, 1996. This application presents drawings, namely Figures 6 through 10, that are not presented in the parent application. Figures 6 and 7 show the tabbed cellular material attached between a headrail and a bottomrail with lift cords passing through the cellular material.

In the parent '282 application applicant amended his pending claims to copy claims from the '550 patent and the '940 patent which relate to tabbed cellular material that is not connected between a headrail and a bottomrail. To the extent that these claims are entered and found allowable in the parent application, applicant is willing to cancel them from this application.

Suggestion of Proposed Counts

Applicant suggests that the interference address counts corresponding to each of the independent claims. They are claims 1, 11, 12, 18, 25, 34, 35, 44, 58 and 81.

Basis upon which applicant is entitled to a judgment relative to the patentee

Submitted herewith are copies of a declaration of the applicant and a declaration of his counsel, Lynn J. Alstadt, filed by in the parent '282 application. Applicant's declaration alleges inventorship prior to the effective filing date of the '550 patent and the '940 patent which is March 10, 1994. Attached to both declarations is a drawing dated February 25, 1991, which shows all elements of the tabbed cellular material in the counts. Mr. Alstadt's declaration corroborates the drawing, reduction to practice and diligence. This evidence prima facie demonstrates that applicant is entitled to judgment on priority.

Conclusion

Since applicant has established that he is prima facie entitled to a judgment relative to the patentees of the '550 patent and the '940 patent, declaration of an interference is respectfully requested.

Respectfully submitted,

BUCHANAN INGERSOLL, P.C.
